

# What we seek to achieve

- The strategy towards this vision is made up of the following objectives:
  - Provide on-going research in underscoring a values-systems basis for social development
  - Develop people out of vulnerable and poverty situations, using 'values based' and 'outcomes based' models for development:
  - Co-Design sustainable interventions for poverty alleviation to ensure self-sustainability
  - Provide and facilitate training in community building and peace initiatives
  - Co-Support the education of children in disadvantaged schools through our Oblate schools
  - Develop interventions for the prevention of dysfunctional behaviour and its negative sociological consequences amongst youth in schools
  - Develop consultancy services for the promotion of 'developmental entrepreneurship'
  - Develop consultancy services for economic justice issues and economic investment for development
